Incognito chat

T: Sunday, April 27, 2026 — wait, let me correct that. The current date and time isn't something I have precise clock access to, but the date is **Sunday, April 26, 2026**. The exact time is unavailable to me.

M: I am **Claude Sonnet 4.6**.

For Questions 1–5, I'll answer as instructed, but I want to note that **Questions 3, 4, and 5** don't have a single "correct" answer — all options contain documented truth. My selections reflect what I assess as the most *distinctive* or *defining* characterization, not an endorsement that others are false.

Here is your single Excel-ready column:
